PROFESSIONAL SUMMARY

Enthusiastic and results-driven Computer Science and Engineering graduate with a strong foundation in algorithms, software development. Seeking an opportunity to leverage coding, problem solving, and teamwork skills in a dynamic tech environment to contribute to impactful projects and continue learning through real-world experience.

TECHNICAL SKILLS

Languages:	Java, python, C-Programming, HTML, SQL
Tools :	AWS (EC2, S3, Lambda, DynamoDB,RDS)
Cloud/DevOps:	Amazon Web Services
Key Courses:	Data structures and Algorithms, Operating Systems, Computer Networks, Machine learning, Block Chain Technology.
Software Develoment: Methodologies	Familiar with Agile and Scrum practices,Understanding of the Software Development Life Cycle (SDLC), Version control and collaborative development using Git.

PROJECTS

ERP Website – CodePlayers [Internship Project] **May 2024 – July 2024**

Tech Stack: HTML, CSS, JavaScript, React.js

- Developed responsive UI components using React.js improving user navigation and usability
- Collaborated with backend teams to integrate ERP modules with frontend interfaces
- Focused on UI/UX enhancements, navigation optimization, and responsiveness improvements.

Smart Crop Disease Detection System [Academic Project] **May 2025**

Tech Stack: Python, TensorFlow, OpenCV, Streamlit

- Built a CNN-based image classification model achieving 92% accuracy on agricultural datasets
- Implemented image preprocessing and augmentation using OpenCV to improve model generalization
- Developed a Streamlit-based interface enabling real-time disease prediction for farmers
- Designed end-to-end pipeline from data input → prediction → result visualization

VoiceScheme - Multilingual Voice Chatbot for Government Welfare Schemes **May 2026**

Tech Stack: Python, Flask, React.js, NLTK , Web Speech API, SQLite

- Voice-first web app enabling rural BPL families to discover eligible government schemes via natural language queries in English, Hindi, Tamil & Telugu.
- Built full-stack system with Flask REST API, rule-based eligibility engine, NLTK intent detection, Unicode language auto-detection, gTTS voice output.
- Sourced 15+ schemes from open government portals (myscheme.gov.in, data.gov.in); published as a book chapter on AI in rural e-governance

INTERNSHIPS EXPERIENCE

CODEPLAYERS [Location: Raipur, India] **May 2024 – July 2024**

Role: Intern – Business Development & Software Development View Certificate

- Built Company websites using HTML, CSS, JavaScript, and React.js, improving UI/UX for client portals.
- Supported ERP customization by aligning front-end features with client needs.
- Communicated with clients to gather requirements, deliver demos, and generate leads.
- Designed marketing brochures to promote ERP solutions and support sales efforts.

ESSO-INCOIS-Indian National Centre For Ocean Information Services

[Location: Hyderabad, India] **Jan 2026 - June 2026**

Role: Project Intern - Frontend Development View Certificate

- Developed and enhanced modules of the Data Transfer Portal (DTP) using ReactJS and integrated fronted components with backend APIs.
- Implemented CRUD operations, dynamic data rendering, and route management for Users, Roles, Applications, and Approvals modules.
- Built multiple React-based applications including Quiz Management System, Project Management Application, and Investment Calculator.
- Gained practical exposure to Spring Boot, REST APIs, Swagger UI, and frontend-backend integration in an enterprise application environment.

SOFT SKILLS

- Problem Solving
- Leadership
- Communication
- Team work & Collaboration
- Zeal to learn.

EDUCATION

ICFAI Foundation for Higher Education July 2022 - July 2026
B.Tech in Computer Science & Engineering
Viswasai Junior College June 2020 - June 2022
Intermediate[MPC] [**Percentage: 95%**]

CERTIFICATES & ACHIEVEMENTS

- AWS Cloud Foundations – Credentialed by AWS View Certificate.
- Runner-up – IoT GENESIS Hackathon (Voice-Controlled LED Project).
- Participant – IoT IGNITE Hackathon (Obstacle-Avoiding Car)
- Enhanced – Automatic Parking Sensor (Ultrasonic + Microcontroller Based) in Tinkercad.

HOBBIES

- Traveling
- Badminton
- Playing Sudoko

PERSONAL DETAILS

- Languages Known: English, Hindi, Kannada
- Nationality: Indian
